

## BUDGET CUSTOM DESIGN

# Miza 61

## Assembly Manual

### Technical Plan

Thank you for choosing a piece of Zaor studio furniture,  
which will hopefully make your life easier, more ergonomic and improve the looks of your workspace.

Before you can enjoy the comfort of your new acquisition you need to assemble it.

We have tried to give you as much detail as needed and as little as possible.

Should you run into any difficulty with this assembly you can get in touch with us via  
[sales@zaorstudiofurniture.com](mailto:sales@zaorstudiofurniture.com) to set up a Skype session or phone call.

Here is a general instruction on how to use the furniture assembly kits:

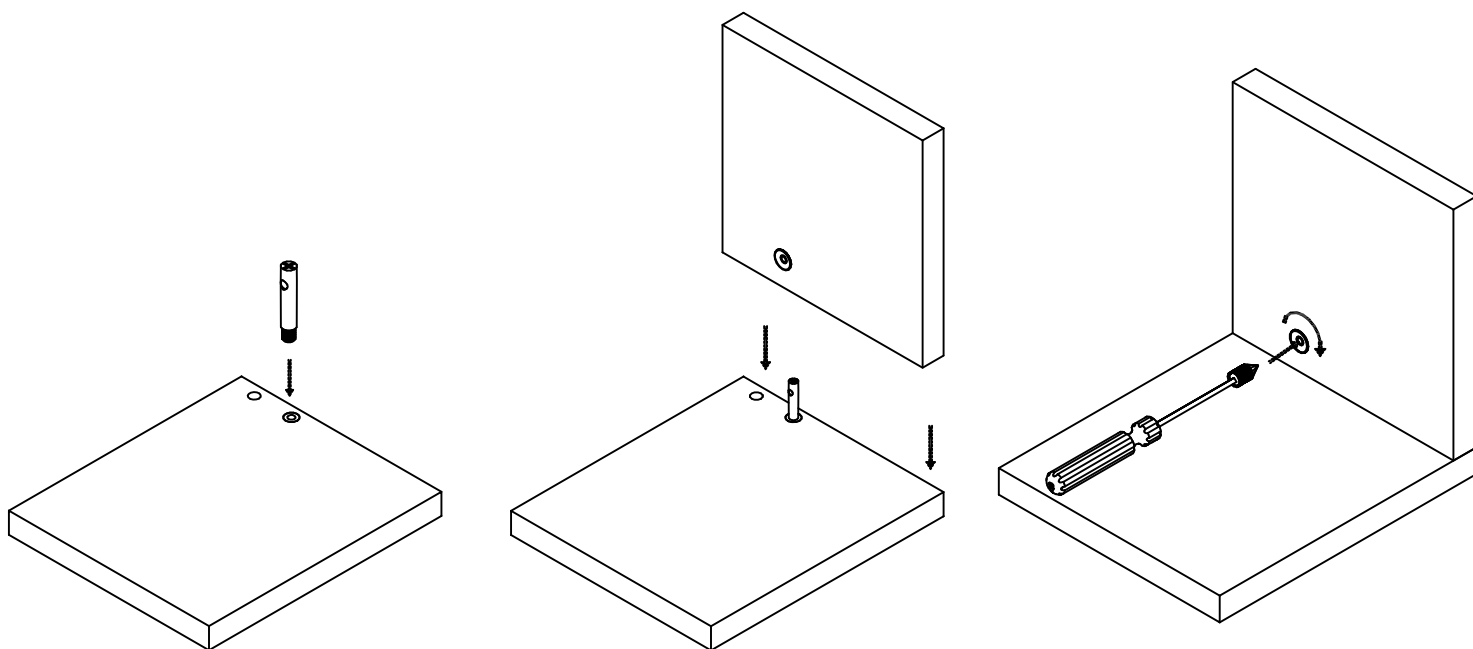

- 1) Insert and screw in the system bolt(s) into the socket(s) already present on the part(s) making sure the hole is at 90° from the edge
- 2) Assemble the connecting parts, inserting the bolts into the smaller holes in the connecting part, the bolt tip fitting into the side hole of the excenter until the hole in the bolt and the center hole of the excenter align
- 3) insert the locking screw into the excenter, and tighten with a cross screw driver all the way without using force!

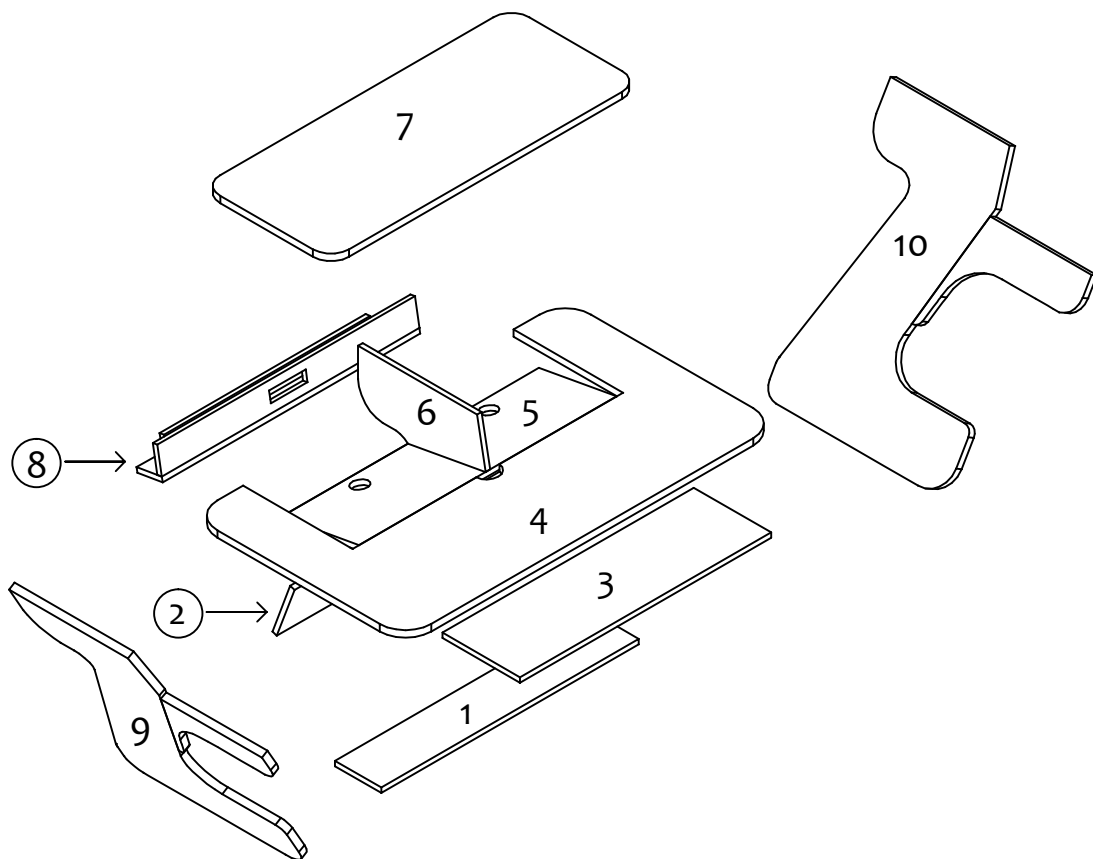

System bolt with hole

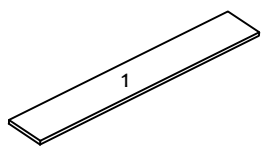

Locking screws

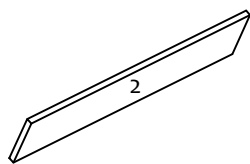

### Assembly Manual

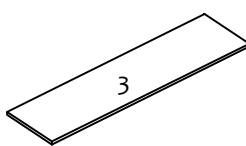

Part n° 1  
Floor stabilising bar

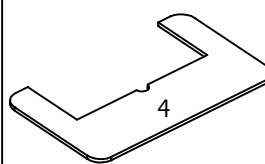

Part n° 2  
Back stabilising bar

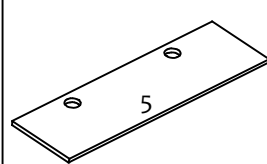

Part n° 3  
keyboard drawer

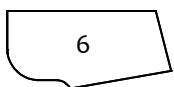

Part n° 4  
table-top

Part n° 5  
Back rack bottom

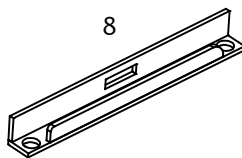

Part n° 6  
rack divider

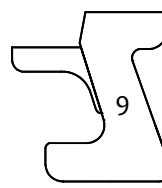

Part n° 7  
top bridge

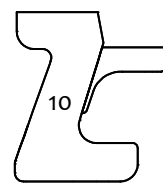

Part n° 8  
Cable tray

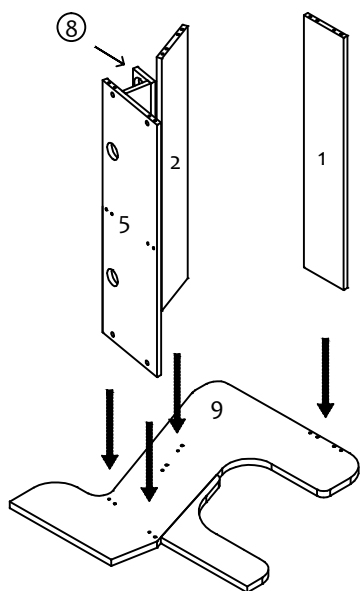

Part n° 9  
Left side part

Part n° 10  
Right side part

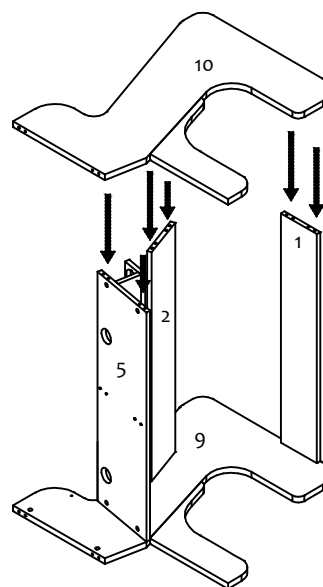

### Assembly Manual

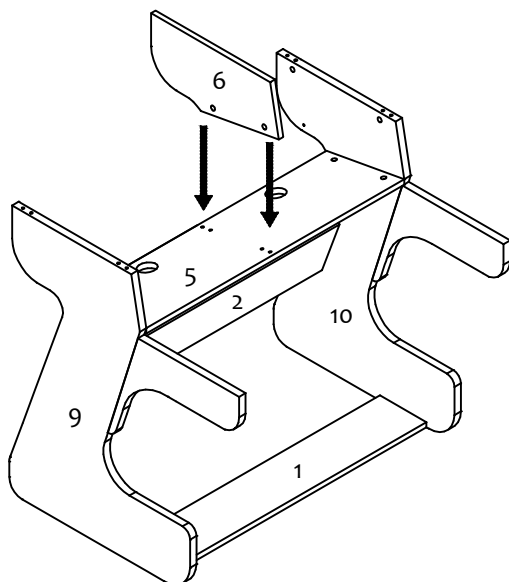

#### STEP 1

Lay side part n° 9 flat on a soft surface and after adding the bolts. Lower down parts n° 1,2,5,8 carefully aligning holes and bolts. Tighten using excenters.

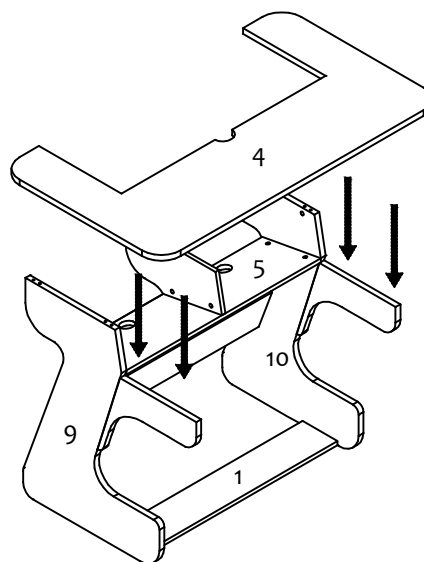

#### STEP 2

Add system bolts on the right side part n°10 and lower it down onto the vertical parts n° 1,2,5,8 carefully aligning all holes and bolts. Press down gently and tighten with excenters.

#### STEP 3

Set the desk up straight as shown, add bolts in the middle of part 5 and attach divider n°6 pressing down gently and tighten with excenters.

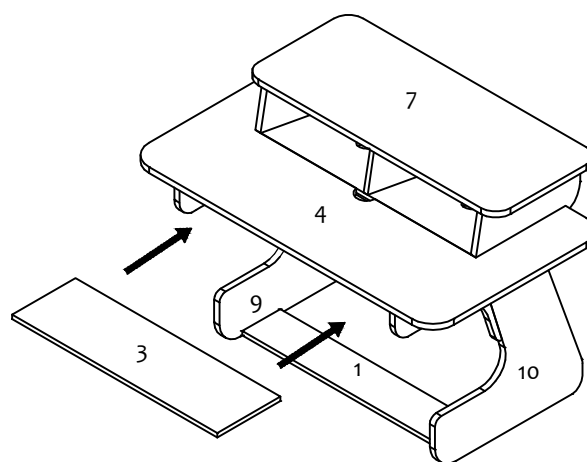

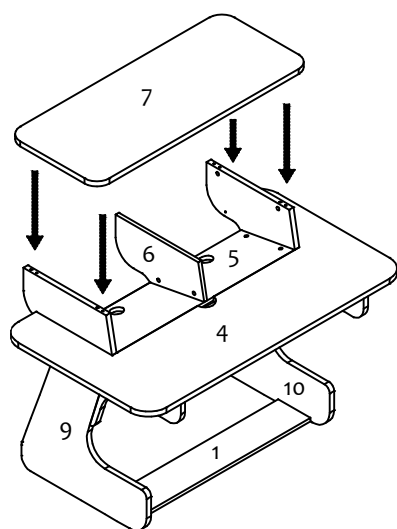

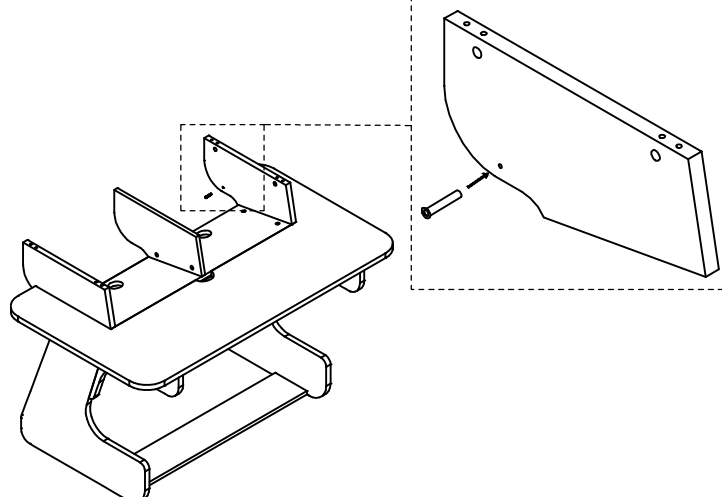

#### STEP 4

Lower down the table top n° 4 onto the side parts 9+10 as provided. Fix the table top through the side parts with screws as shown in the graphic n°1.

### Assembly Manual

Graphic n° 1

#### STEP 5

Add bolts to top bridge n° 7 and lower it down onto the side parts and the divider. Tighten with excenters. After this, take part 3, the keyboard drawer and very gently without forcing or jamming, insert it in the rails present on the two side parts 9 and 10. It is essential that both sides advance equally, so take it slowly. That way you can enjoy the drawer function for a long time. Time to put in your gear!

#### Material used

- Melaminated chipboard 15+25 mm;

#### PACKING LIST

- N° 28 assembly kit
- N° 10 part;
- N° 1 sliding drawer;

#### CLEANING INSTRUCTIONS

- clean with a soft, humid cloth or specific wood cleaners;
